

ERRATA FOR “SEMISIMPLICITY OF EXTERIOR POWERS OF SEMISIMPLE
REPRESENTATIONS OF GROUPS”

GEORGE MCNINCH

As pointed out in J. D. Dixon’s MathSciNet review of the paper (McNinch 2000), there is a typographic error in the statement of Theorem 3 in the introduction to this paper. In the definition of $\mathcal{N}(\mathbf{V})$ prior to the statement of the Theorem, the condition

$$\sum_i (n_i - m_i) < p$$

should instead read

$$\sum m_i (n_i - m_i) < p.$$
